

Mercedes-Benz

Mercedes-Benz will be holding an open evening at Bishop's Stortford which will give prospective apprentices the opportunity to come and have a look where they will be working and ask those all-important questions.

The apprenticeship they offer is truly world class with a very well respected career at the end and a very competitive salary.

This year they are looking for technician apprentices who are the heartbeat of any Mercedes-Benz dealership. They are holding an open evening at Mercedes-Benz Bishop's Stortford on 20th February but also holding other open evenings at their other dealerships should they be more convenient for you.

Mercedes-Benz Hertford – 19th February
Mercedes-Benz Bishop's Stortford – 20th February
Mercedes-Benz Stevenage – 21st February

If you are interested in attending one of their open evenings please click on the link below and complete the online form.

Pembroke College

Tuesday 16 April to Thursday 18 April 2019

Pembroke College is delighted to host their popular 3-day Women in Science residential in April 2019. Open to Year 11 students

Successful applicants will have the opportunity to stay in College, meet current students, be challenged in academic sessions covering a range of sciences, and

find out more about Cambridge – both as a city, and a university.

Students who participate will get a real taste of university life, and a better understanding of what they can do now to prepare themselves for this step.

Subjects:

Sciences, Medicine/Biomedical Sciences/Medical Sciences, Physics, Biology, Earth Sciences, Biochemistry, Chemistry

Eligibility

There are a number of eligibility criteria that are considered when selecting successful applicants. Essential criteria include identifying as female, currently attending a state school, and having a minimum of five 6-9 grades predicted at GCSE. Students must also be studying at least two sciences.

Beyond these required criteria, priority will be given to students who meet one or more of the following:

- Have no parental history of higher education
- Live in neighbourhoods with low overall progression rates to higher education
- Have lived, or are currently living, in local authority care
- Have been eligible for free school meals within the past five years
- Are from an ethnic group which is currently underrepresented at Cambridge
- Are from Gypsy or Traveler communities
- Are a refugee
- Have caring responsibilities for a family member
- Have a disability
- Attend a school in one of Pembroke College's Link Areas.

Cost

The Women in Science residential is free of charge for successful applicants. Accommodation, food, and evening activities are included. Students are expected to arrange their own travel to and from Pembroke, but Pembroke College will cover the cost of travel if a student is currently on free school meals. If this applies to you, we will contact you directly.

Applications no later than 8am on Monday 25th February.

STRONGA

Are a small manufacturing company based in Hertford.

They currently have a number of exciting paid projects available for a student to develop their skills in 3D animation and product visualisation. They believe this is a great opportunity for a student to get some valuable, paid work experience

3D DESIGNER / ANIMATOR

Project Description

A fantastic opportunity for a talented student (School or University) to take on a number of exciting paid projects.

You will play a key role, working from an agreed project brief, creating stills and animations for use online. A creative thinker who can build upon previous 3D work (see to the right & above).

A typical project would involve attending a brief meeting at our office in Bayford; going away and quoting for the work; on acceptance of the quote, carrying the idea through from conception to final piece.

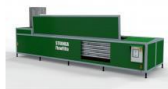

Responsibilities:

- Working on a project-by-project paid basis (this is not a full time job);
- Develop 3D models based on a brief;
- Work together with our team to develop an animation storyboard.

Desirable Characteristics, Skills and Experience:

- Proficient with your chosen 3D design / animation software;
- Excellent communicator, verbally and written;
- Well organised and punctual.

If you are interested in working on some exciting paid 3D projects in your spare time when you aren't studying, please email marketing@stronga.co.uk to find out more.

Work Shadowing with Frontier

Frontier runs regular work shadowing days based at their London HQ. Work shadowing days offer the chance for 16-18 year old students to come to their London HQ and shadow a member of our team.

This provides a great opportunity for students with an interest in environmental conservation, international development, journalism or volunteer travel to get a taste for what a career working for an NGO in this industry would be like.

They are opening a second round of applications to fill the final few remaining places on their upcoming Work Shadowing days, taking place during the February Half-Term 2019.

The specific dates for their work shadowing days are:

- 19th February
- 20th February
- 21st February

Their work shadowing days provide a great opportunity for students with an interest in environmental conservation, international development, journalism or volunteer travel to get a taste for what a career working for an NGO in this industry would be like. With the half-term just a few weeks away, places are filling up and we want to make sure we accommodate as many students as possible!

These are aimed at A-level students. The selected students will attend on one of these days and will work with a relevant department at Frontier. These departments are:

- UK Operations
- Overseas Operations and Research
- Media and Marketing
- Events

Their work shadowing days have been very popular in the past and places are limited. To apply for a place, students should visit their website at www.frontier.ac.uk/workshadowing.aspx where full

instructions and an application form are available.

Experience Engineering Residential

Applications for the upcoming Experience Engineering residential at the University of Southampton is now open for applications.

Experience Engineering 14th – 16th April 2019

Experience Engineering is an exciting residential course designed for Year 12 students interested in studying engineering at university. This engineering course will introduce students to the areas of Ship Science and Mechanical Engineering. Over the course of three days, participants will design, build and test a Greenpower car and a fastcraft for water as part of a

team. Talks, workshops and seminars from staff and students in the Faculty of Engineering and Physical Sciences provide insight into the wealth of careers and opportunities that an engineering degree can provide.

Participants live in university halls of residence for the duration of the course, and are mentored by current undergraduate and postgraduate students, giving them a unique opportunity to find out what life is like at university. The course is a great opportunity to get a taste for engineering ahead of university applications.

This course is free to attend. To be eligible participants must be under the age of 18 at the time of the summer school, meet the following academic criteria:

- Have achieved at least five 9-7 grades at GCSE
- Are taking relevant subjects in relation to engineering (e.g. Maths, Physics and other Science subjects)

Applications are now **OPEN** for this course, For further information please visit their website

Quantity Surveyor Apprenticeship

Direct Staff are delighted that for the 13th Year running they have been retained to undertake this recruitment process again

Their prestigious client in Central London is looking for people who will complete full-time education this year after sitting their A Levels or BTEC Qualifications, who want to become Quantity Surveyors. You must have predicted UCAS Points of at least 120 (Subjects must include Maths or a Maths related qualification, which is

essential to be considered for the role, and two additional academic subjects OR a relevant BTEC qualification). - Successful candidates will join the companies Academy Scheme, and whilst working, will study via University (Reading), their degree and then progress to do RICS examinations - which is funded by the company alongside a generous salary - Full support and an excellent salary will be given throughout

If you are selected as a suitable candidate, you will need to come in to register in their offices in Goodmayes and then, if successful at registration, interviews with the Client will take place in July. Work would be to start in September although any job offers from the Client will be subject to required UCAS points being achieved. We also this year have a position for someone that left full time education last July and has taken some time out to decide how they wish to proceed with their Career – this position is to start Immediately

Send CV's to: info@direct-staff.co.uk

Engineering Apprenticeship - Repair Support (East) -

'Your Ambition Keeps Cosy Constant'
