Dear Parent/Carer

In order to support your child during this time, we have reissued the log-in details for Classcharts (<https://www.classcharts.com/>) to students and posted letters to parents with their log-ins. Tasks and materials will be posted here for students to work on whilst at home. Work can then be submitted via email to the appropriate teacher, who will look at the work and send feedback. Teachers will upload work daily so students should check Classcharts regularly.

In addition, there are packs of revision materials available for students. These have been uploaded onto Classcharts, some have been handed out and they are also available on the school website here: <https://haileyburyturnford.com/key-stage-3-extension-work/>

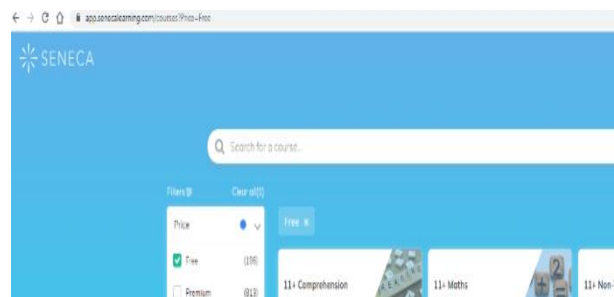

In addition to these resources we recommend the following websites:

<https://www.senecalearning.com/>

This features all subjects and exam boards and whilst there is a section where you need to pay, many of the resources are free. In order to access the materials, go to the web page:

<https://app.senecalearning.com/courses?Price=Free>

From here you can access materials without creating a log in, however if you create a login the site will 'mark' answers and keep a log of your results, helping direct you to areas you need to focus on.

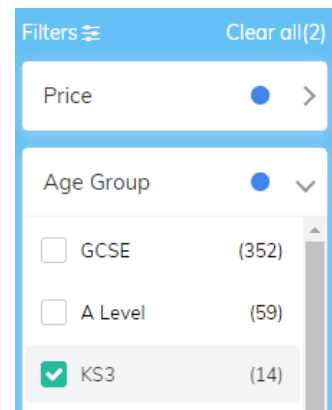

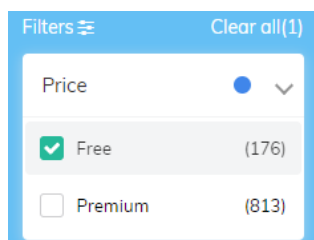

If you wish to sign up, click in the top right-hand corner and a sign-up box will appear (see opposite.). Once you have completed the sign-up page using your Haileybury Turnford account, it will ask whether you are a student or a teacher. It will then ask for the school's name.

To get Premium services, you would need to pay, however the free resources are excellent and provide plenty of detail and information to use alongside other materials provided by your teachers.

Once you have accessed the front page you can select the relevant filters to search for learning support materials.

Once you have opened the website please use the following filters to find suitable KS3 information (Price Free – Age group – KS3)

Once the "filters" above are applied you will be able to find the following KS3 resources

Our advice is that students should spend up to 2 hours per day using the free resources above and spreading their time evenly between subjects.

What other websites are available to support my child in addition to their class charts work?

The following websites have a wide range of information available to students to support their learning. Please do spend time navigating around these websites. Where possible, students are encouraged to sign up to the website which will enable them to keep a track of their learning.
