Dear Parents/Carers,

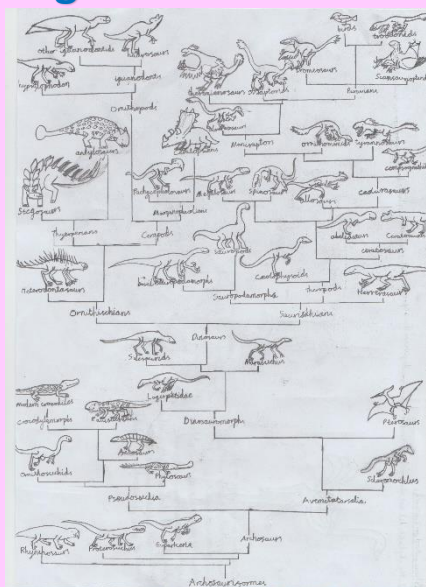

We have been overwhelmed by the work that has been completed for our students at HT; It is simply excellent! We hope that you have found our project-based learning projects easier to manage and complete.

We will continue with the project work for at least another two weeks. Please do continue to email your teachers for advice and support.

Continue to keep safe and, as mentioned before, do get in touch if you have any questions.

The HT Staff Team

George Blunt – Yr 7 Biology

Support during COVID-19

Today, Safer Places launched a new [live chat](#) service to support those experiencing, or at risk of abuse.

The new service enables anyone experiencing abuse to chat directly with a member of the [Safer Places](#) team.

The measures announced to tackle coronavirus (COVID-19) have seen day to day life change dramatically and undoubtedly made it harder for people to access support services as survivors are isolated with abusers with small windows of opportunity to speak. This new service will give survivors the opportunity to access support discreetly.

Thank you

Janet Dalrymple, CEA Safer Places

MasterChef?

Who will be our MasterChef?

We are launching a cooking competition for all Haileybury Turnford students. You can cook whatever you like, as long as it is impressive!

Please send photo evidence to our House Leader Mrs Morgan. Mr Newman will do the overall judging.

The winner will receive 150 points for their house and an opportunity to be in the Principal's book. The winner will also have their photograph in our Newsletter.

The deadline is the 1st May. - Good luck! Entries to:

YC Hertfordshire

Useful information, advice and guidance for young people

This pandemic is changing the way education must be delivered, which means that there is a lot more emphasis on independent learning. However, when this comes to researching and understanding your future, this can be difficult. YC Hertfordshire provide careers guidance in our school and youth worker support both in schools and the community. We have put together the information below to help you start on this journey. We know this will raise questions and your adviser is on hand to support you.

Things you can do that are careers-related:

- Complete relevant activities on Unifrog. See the email from Miss Ward for help logging on.
- Try online careers tasks for your age group [here](#) (all students)
- Research the networking tool 'LinkedIn' [here](#) and create an account (Key Stage 5)
- Monitor the latest University advice [here](#) (Key stage 5):

If you have any further questions surrounding careers then please contact wardk@haileyburyturnford.com
