## AMBITION • PRIDE • SUCCESS

Dear Parents/Carers,

We have been continuing with our project work and we are still very impressed with the quality of work that we are being sent in. After half term we will be releasing new projects and more information will be sent to you about this.

We have launched a number of competitions and additional activities for our students to complete including the house cooking competition and our VE day activities. We very much encourage all of our students to take part, so please do get involved!

### Ronnie Harris says...

"My Media teacher is really supportive by putting all of our class in a group so that we can all learn together on the same thing. Also, my drama teachers are extremely helpful by listening to what I have to say in emails, in person and by setting videos up online and providing links to things such as BBC Bitesize. These things have been tremendously useful to my school life... at home".

Drums

- This is a well known instrument
- This can come in a full kit or a single drum
- The drum takes a lot of skill to play because you have to know how to hit light to make a sound so this is why it takes a lot of skill to learn
- It is made of wood and in the middle you have something like plastic or for example cow skin

## Victory in Europe Day – 8<sup>th</sup> May

### What is VE Day?

VE Day marks the day towards the end of World War Two when fighting against Nazi Germany in Europe came to an end.

### How will you celebrate VE Day?

Tuesday 8<sup>th</sup> May 1945 was an extremely emotional day as people were glad that the fighting had stopped and the war was ending. Many people had street parties and celebrated with family members.

This year we will have to celebrate in a different way than anticipated due to the current restrictions. Mr Stuart has put together a number of resources which will be uploaded onto Class Charts to provide some inspiration for how you may celebrate.

Please do send us photos of your celebrations at home!

## Class Charts – How do I check feedback?

Many teachers have enabled the feature to allow students to upload their work to Class Charts. You simply click the “add attachment” button and this will allow students to upload work. Your teacher should then respond within two working days. You need to look out for the orange feedback label which will appear when the feedback has been completed. See the picture on the right-hand side. Click this and the feedback will appear.

Any problems then please do contact your Year Achievement Coordinator.
