Dear Parents/Carers,

We hope you are all keeping safe and healthy. We have 5 weeks left until the end of the Summer Term and we have lots of exciting activities planned for you, so please watch this space! We are carefully following government guidance and planning for our re-opening for Year 10 & 12 students. We have taken precautionary measures to ensure that students adhere to social distancing. Our online curriculum will still be delivered in the same way for other year groups.

Do continue to keep in touch,

The HT Staff Team

HARMONICA

he might not look like much but she is the embodiment of sound. harmonica got ignored by her siblings because she wasn't as powerful or over hungry. She loves music the most, her being the creator, she disguises herself as a human to play music.

he left all her siblings and made a life on earth but who knows where he is now. She was born 10 minutes too late to see her parents faces.

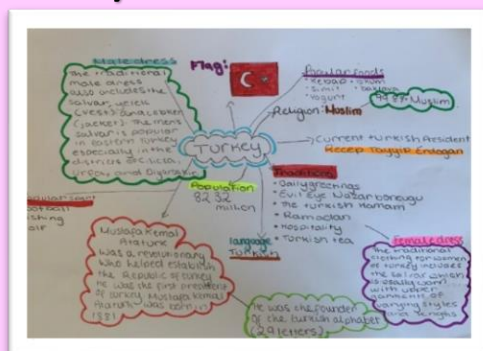

harmonica hates her big brother the most because he was the one who rew up ridiculously quick and left them all except Frost.

hat is all that's know about her but there is a really amazing female musician I wonder who that could be?

chose this colourful musical note because she is the original creator of music and it looks cool.

Black Lives Matter

Government advice

Some of our students have produced some amazing work to support the "Black Lives Matter" campaign. The quotation below was produced by a Year 10 student.

How does this make you feel?

I feel sad that these things happen and I also feel disgusted that these things still happen in our world. We are the only species to openly treat each other differently based purely on how we look. You don't see fish only hanging around with other fish of the same colour. Think about it. Fish are smarter than us. It's ridiculous that we judge people on how they look. It's idiotic and it shouldn't happen. I know that racism will always exist and you would be naïve to say otherwise but just because it happens it doesn't mean we should let it. It is so stupid that with all of the problems we have in our world like global warming, we still have racism. People need to grow up, it's immature to act the way they do. While they are thinking that because a black person gets arrested that they are immediately about to hurt someone, the world is dying. And we have caused it all. To me it's stupid that some people caused so much hurt just because they don't like the colour of someone's skin.
