How the LRC is arranged

There are 2 main groups of books:

Story books (FICTION) and information books (NON-FICTION)

FICTION

These books are divided into sections:

Novels for older readers (black dots), In-betweens (green dots), Quick Reads (orange dots). Some books have labels to show the type of story e.g. horror, animal, science fiction.

NON-FICTION

Each subject is given a number according to the **Dewey**

system so that all books on the same subject are together. The books are kept in numerical order on the shelves. This is the system used in public libraries.
