Medical Projects

At Medical Projects, they understand how competitive and challenging it can be to gain a place at medical school. Along with excellent grades, there are lots of hoops to jump through including; entrance exams, tricky personal statements, interviews and much more. They support aspiring medical students every step of the way with a range of advice, guidance, webinars, articles and courses.

GP Live

Think you have what it takes to be a Doctor? Well, now you can actually become the GP. You will take actual patient histories, form diagnoses, order tests & scans and suggest treatment plans.

Their ground-breaking GP Live gives students the opportunity to host their own GP surgery, under the guidance of their Mentors. They have a bank of real medical cases and students will have patients to take patient histories from, and then discuss the assessment with other students and the Doctor.

Unlike other courses that use pre-recorded videos, this course is LIVE and interactive. Students will talk directly to patients and have the full support of the group and their mentors to work through each case. After each case there is a full breakdown of the medical side as well as looking at communication and the role of a Doctor. Real experience, real medical cases and real insight. Better than shadowing a GP – You are the GP!

Why join the GP Live course?

Real-world medical experience
Better than traditional shadowing placements
All online - Can be completed at home
Amazing for personal statements and interviews
Receive a certificate of completion for your portfolio

PwC Flying Start Degree

PwC Accounting Flying Start degree programme lasts four years and will fast track your career in Business and Accounting. During the programme you'll have three paid work placements with them. They're built into the university's academic year and last for just one term in each year, so you'll still have the whole summer off to enjoy. The programme will put you on track to becoming an ICAEW Chartered Accountant – you'll complete 80% of your ICAEW exams on the degree, and will be just over a year away from the full qualification once you graduate.

6 Reasons To Choose The Flying Start Accounting Degree

□ Enjoy the best of both worlds

Be a student and be a professional. Enjoy everything university life has to offer and then taste what it means to be a Chartered Accountant on multiple placements at PwC throughout your degree.

□ Study at a one of the leading UK University Their four-year Flying Start programme can be studied at Newcastle University Business School, Henley Business School at the University of Reading, Nottingham University Business School and Alliance Manchester

Business School at the University of Manchester.

□ Financial Package

We offer a competitive financial package to support your time on the degree: Paid work placements with a competitive salary. Sourced and paid for accommodation where needed for each work placement period. Some of the Universities offer reduced tuition fees during your degree. Many of the learning materials are provided free of charge. ICAEW registration fee

□ Globally recognised qualification

The Institute of Chartered Accountants in England and Wales (ICAEW) is a world-leading professional membership organisation that promotes, develops and supports over 150,000 Chartered Accountants worldwide

□ Work with PwC

PwC has been voted the UK's Accountancy Employer of Choice for 20 years. There's no better place to learn your trade as an accountant. You'll join one of PwC's Audit teams, where you could be working on external audits.

□ Job offer

The vast majority of finalists on this programme with PwC have received a job offer after graduation, joining in year 3 of our graduate programme meaning potentially becoming a fully qualified ICAEW Chartered Accountant with the salary to match, just over a year after graduation.

How do I apply?

You apply for the Flying Start degree via UCAS.

Chartered Manager Degree Apprenticeship (CMDA) CPMK

Cereal Partners UK is a powerful alliance between Nestlé and General Mills. They established themselves as one of the largest cereal manufacturers in the UK, producing some of the world's best-loved brands, including *Cheerios*, *Shreddies* and *Shredded Wheat*.

As a CMDA Apprentice at our Welwyn Garden City site in Hertfordshire, you'll get to experience all these departments: Supply Chain. Sales. Marketing. Category Sales Development. Across a number of placements, you'll work your way through each area to gain an end-to-end understanding of the whole process. During your time in Marketing, the key will be to gain a really good grasp of how they understand their brands and how they perform externally (market sales and consumer & shopper measures) as well as internally, reviewing profit and loss (P&L). You'll also manage parts of innovation or renovation projects, in addition to supporting the team with necessary admin to ensure everything runs smoothly. Your Sales placement will see you look after their retail customers, ensuring they maximise store sales through the promotion of new and existing products. Lastly in Supply Chain, you will learn to understand the fundamentals of this busy division, working across a number of different teams.

You'll also get to put your learning into practice working on real-life projects under the guidance of seasoned experts. Your time spent at Sheffield Hallam University, will see you work towards your BA Professional Practice in Management as well as experience a bit of student life. All accommodation and travel is paid by us, not to mention the food allowance (whilst you're in uni).

At the end of the three-year programme, you'll come out with a degree that didn't cost you a penny and skills and experience gained at a global operation to boot! As though that isn't reason enough to apply,

you'll also have the option to choose to work in the department you most enjoyed. What's not to like?

They will be looking for 5 GCSEs at grades 9-4 which must include English Language and Maths, plus a minimum of 104 UCAS points

Salary: £14,000 pro rata + Excellent benefits

Software Engineer Degree Apprenticeships

At the UK Intelligence Agencies, we protect the UK from a range of threats, including terrorism and espionage. It's fascinating work with real purpose, and it's work we couldn't do without our software engineers. But we understand that not everyone will have a software degree, because uni isn't for everyone. Luckily, MI5, MI6 and GCHQ are. That's where our degree apprenticeship comes in.

Over the course of three years, you'll enjoy lots of unique, hands-on work that'll challenge you every day. You'll build and maintain some of the world's most advanced software tech – all while working towards a BSc Honours degree. And you'll be surrounded by supportive, like-minded people. It's the perfect way of starting your career after secondary school or college.

To join this BSc Honours degree apprenticeship, you'll be fascinated by tech. You'll also have (or be expecting) three A-Levels. Two of these need to be in a science, technology, engineering or maths (STEM) subject. One A-Level will need to be at grade C or above, while the other two will be at grade B or above.

While an interest in programming would be great, we don't expect you to have fully developed skills. Instead, you just need to be keen to learn. We'll teach you the rest.

Salary

London: £24,385
