

What is an Apprenticeship?

- You're treated like any other paid employee, clocking up holiday pay as you go, but you're also working towards a debt free qualification.
- You can expect to work in the region of 30 hours a week with your employer, plus a day of study either at your workplace, university, college, or online.
- It'll all be laid out in the contract between you and your employer, and that's the important thing to note – that every apprenticeship is completely different.
- But the common draw for apprentices is always the same: The reward for delicately balancing your lifestyle around work and study, is that your tuition fees are covered by your employer and the government. So, you emerge into the working world already on a career path, with nothing to pay back

What are the different types of Apprenticeship?

There are four types of apprenticeship

Generally speaking, an advanced apprenticeship is equivalent to three A levels, a higher apprenticeship lines up with a foundation degree, and a degree apprenticeship is the same as a bachelor's or master's degree.

- Intermediate apprenticeships (Level 2)
- Advanced apprenticeships (Level 3)
- Higher apprenticeships (Level 4 and above)
- Degree apprenticeships (Level 5-7)

Each level has different entry requirements and will attract different kinds of applicants

How long do Apprenticeships last?

That depends on the profession, the employer, and the level of study. You could be looking at anything from 12 months to six years

For further information about apprenticeships please check out our student opportunities sent out last week!

InvestIn are delighted to announce their "Success Beyond School" events for this term: free-of-charge interactive 'Live Online' seminars designed to help you supercharge your children's career potential.

Wednesday 24th February: The Skills Surgery

How to break into careers in medicine, dentistry and veterinary science.

Wednesday 3rd March: The Power of Networks

How your child can build a powerful professional network

These events are for parents of children aged 12-18 and free to attend.

Deloitte.

Deloitte would like to invite you to experience an exciting new series of virtual events where passion meets purpose and every participant has the chance to learn, grow and develop.

The Festival of Opportunity is a line-up of inspiring, live virtual events taking place over the next two weeks. You'll be taken on a journey of discovery, learning all about apprenticeships, exploring the different careers you can enjoy at Deloitte, meeting our people, and developing your skills and confidence. Each event is unique and open to anyone interested in apprenticeships and graduate opportunities with Deloitte, whether you're a student, parent, teacher or careers advisor.

From cultivating a growth mindset to business writing and communicating with impact, each virtual event is unique, offering insight, practical workshops and an opportunity to add to and develop your skill set.

Meet and engage with Deloitte colleagues, ask questions and explore our different career paths aligned to your passions. Build your skills, test yourself with interactive challenges and discover how a career at Deloitte rewards your curiosity, ambition and personal goals.

Hospital work experience has always been the most sought after but the most challenging type of experience to find. Hospitals currently have blocked or severely limited work experience spaces for students, but we have now solved this problem!

Medical Projects' Ward Round Live course uses the latest live-streaming technology to bring you into their simulated ward. Students will see real cases and can now talk with their patients. Students will discuss each case with their fellow students and their NHS Doctors in more detail than they would get a chance to in traditional hospital shadowing placements.

They believe there is no better experience than an immersive one. Students will learn to speak to patients, order tests and examinations, as well as discuss each case with our Doctors before suggesting treatment plans.

This course is taught and guided by their dedicated NHS Doctors. A full day of ward-based medical experience to boost your medical school application.

They do have spaces on their "Virtual Ward Round Course". They have actually built a hospital ward where they can live-stream hospital patient cases directly to aspiring medical students. I have included details of the next Ward Round Live course below:

Name: Ward Round Live

Ages: 15+

Next Date: 15th February 2021

Time: 10am - 4pm

Link: <https://educationprojects.co.uk/medical->

International Women and Girls in Science Day Year 12/13 Live Q&A

11th Feb, 6-7pm

Warwick University are excited to bring you a live panel with some of their leading female academics, who will give you a first-hand account of their journeys into Science, how they discovered their pathways and what inspiring ideas they are leading on. Students will have the chance to ask questions, hear from one of their Warwick Graduates, as well as a current Warwick Science student. *You will also be able to access short pre-recorded videos of our panel members and other women from the Faculty, before the event.*

<https://warwick.ac.uk/fac/sci/scienceinschools/events/signupform/>

NHS Talent Academy E-Placements and Virtual Work Experience

The first E-placements have now launched on the NHS Talent Academy and are available to you.

The E-Placements will provide individuals with an insight into their chosen career path through a series of videos, tutorials, quizzes and virtual tours, assisting them to make an informed choice about their future career direction.

Further details of other virtual work experience programmes can be found on the **Health and Care Academy**

Website More opportunities will be added over the coming weeks and months as they continue to look at ways they can support students in the absence of face-to-face work experience.

National Apprenticeship Week

Warwick University have compiled some of their digital resources for you to help raise awareness of Degree Apprenticeships.

■ **Listen** to their apprentices' experiences of studying at a world-leading university and putting that knowledge into practice in the workplace.

Dr. OJ'S Saturday Surgery - Live Every Saturday in February

Join Dr OJ & guests, live and online every Saturday in February as he guides you through real life patient cases from symptoms, diagnosis and treatment.

Dr OJ works in a busy NHS hospital in England so this is a unique opportunity to learn more about healthcare and some fantastic material to use in your med school applications and to talk about at interview as verified work experience.

After fantastic feedback on our November & January sessions, students asked us to continue the series so Dr OJ is back. Live every Saturday at 12.00pm noon GMT and available on demand to watch anytime that suits you best afterwards.

Perfect for all students aged 14-19 interested in Biology, Science, healthcare and of course those considering careers in medicine & healthcare.

A fully personalised certificate will be sent to students who attend all of the sessions at the end of the course detailing the work experience they have achieved, certified for 10 hours of work experience and signed by a practising NHS doctor.

13th Feb: Ophthalmology

20th Feb: Rheumatology

27th Feb: Respiratory

How do I join? What does it cost?

If you would like to access all 4 sessions and obtain your personalised certificate, the course is just £29.95 in total. You don't need to watch the sessions live to obtain your certificate.

If you have any questions or queries relating to careers please contact the careers leader Kate Ward on wardk@haileyburyturnford.com
