

Press Release

## Generous donation to Haileybury Turnford from The Saracens Foundation

The Saracens Foundation has been working across Hertfordshire and North London with the aim of transforming lives on and off the pitch to build stronger communities. The Saracens Foundation, the charitable arm of Saracens Rugby Club, was founded in 2000.

They work collaboratively to enhance the education, employability and health of our communities, to build a stronger and more inclusive society for all. Their programmes address specific social needs within our community by encouraging increased participation in sport and physical activity; breaking down barriers to participation for specific excluded groups, developing interventions to address health issues and developing pathways into education and employment.

Thanks to the generous donations they have received from individual and corporate supporters they were able to successfully distribute a number of Chromebook to Haileybury Turnford.

#StrongerTogether #digitaldivide

Robin Newman, Principal of Haileybury Turnford said *“We were thrilled to receive 30 Chromebooks from Saracens Foundation which will make a huge difference to some of our students – thank you.”*
