2. *What are the different types of support available for children with SEND in our school?*

We are a mainstream secondary school providing support for students with SEND for whom mainstream education is appropriate.

Subject teacher input, via excellent targeted classroom teaching (High Quality Teaching)

For your child this means;

- Teachers have the highest possible expectations for your child and all students in their class.
- If a Link Worker (LW)/Learning Support Assistant (LSA) is in the lesson, their support is targeted to ensure that learning is moved on.
- Your child is fully involved in learning in class.
- Strategies which may be suggested by the SENCO or other professionals working with your child are in place to support your child to learn.

Specific group work provision

- This could include, but is not limited to: reading comprehension, numeracy, spelling, emotional wellbeing, social skills development or physical exercise programmes to develop gross and fine motor skills.
- It could be run by a teacher or support staff.

Specialist professionals

- You may be asked to give permission for your child to be referred to a specialist professional, e.g. Educational Psychologist. This will help the school and you to understand your child's needs better and so support them more effectively.

The specialist professional may work directly with your child. They may make recommendations for support at home and/or in school.

Specified Individual support - Education, Health and Care Plan (EHCP)

This type of support is for children whose learning needs are severe, complex and lifelong. Students learn in mainstream classes.

- The EHCP will outline the outcomes expected and may state the support your child will receive from the LA, how the support should be used, and what strategies must be put in place. It will also have long- and short-term goals for your child. An additional adult may occasionally be used to support your child with whole class learning, run individual or small group programmes.

3. *How can I let the school know I am concerned about my child's progress in school?*

- If you have concerns about your child's progress you should speak to your child's subject teacher, form tutor or the Year Achievement Co-ordinators initially.
- If you have concerns that your child has an unmet special educational need after this, contact the Flex/SEND Co-ordinator.

4. *How will the school let me know if they have any concerns about my child's learning in school?*

If your child is identified as not making progress, the school may set up a meeting to discuss this with you in more detail and to:

- listen to any concerns you may have
- plan any additional support your child may receive
- discuss with you any referrals to outside professionals to support your child's learning

This might take place at a parents' evening or at a planned meeting.

5. *How is extra support allocated to children and how do they move between the different levels?*

- The school budget, received from Hertfordshire LA, includes money for supporting children with SEND.
- The Principal decides on the budget allocation for special educational needs and disabilities in consultation with the school governors, on the basis of needs in the school.
- The SENCO and the Flex/SEND Co-ordinator and Year Achievement Co-ordinators (as appropriate) discuss all the information they have about SEND in the school in relation to the allocation of resources, including:
 - the students getting extra support already
