

Dear Students, Families and Colleagues

I hope you had a restful half term. We have had a busy start to the half term, Brilliant Club, from the Scholars Programme, is up and running. 13 Year 9 students meet weekly with a PhD student teaching them how to complete a University level assessment.

We also have Jon Datta, who previously worked at HT who now works at Cambridge University, coming in on the 24th November to work with groups of Year 9, 10 and 11 students about University life, supporting with Russell Groups and Oxbridge University spots and what it is like to study at Cambridge, alongside answering any questions they may have about University.

Year 11 students have an important few weeks ahead in relation to starting to be clear about what pathway they are going to go on and study. We have HT 6th form open evening on 24th November and local 6th forms and colleges will have open days around this time, we encourage you to go and explore different options, there is more information on others within this bulletin.

As ever, please have a look through and click on the links to various different websites for more information and any questions please get in contact with me.

Macaulay@haileyburyturnford.com 01992 308 333 ext: 300

Yours faithfully

Mr E. Macaulay

VIRTUAL EMPLOYER ENCOUNTERS
Webinars for students

[Click link](#) – to sign up to the webinar

Come and learn about the day in the life of two engineers; one currently working through a Degree Apprenticeship and the other who has over 30 years in industry.

Both are employed by AECOM, a global engineering company based in St Albans who offer a range of apprenticeship and graduate opportunities.

Callan Deradour – Callan is a second year degree apprentice at AECOM studying part-time for B.Eng in Civil Engineering at London Southbank University. He works in the Development Infrastructure business designing roads, drainage and other infrastructure in support of large scale housing developments and highways schemes.

Carl Pledger – Carl is a director in the Design Management team at AECOM. With 30 years in the construction industry Carl started out as a local authority, civil engineering apprentice, studying part time for qualifications in civil engineering including a B.Eng. After spending 14 years as a civil/structural engineer Carl moved into design and project management and has worked on large-scale building and engineering projects in the UK and overseas.

Virtual Work Experience Opportunity

Marketing Work Experience With CIM

Aimed at students between year 10-13

[Click link](#) to visit a wide range of potential virtual work experiences with Springpod. Excellent opportunity to develop your employability skills and get a flavour for life outside of school

Kickstart your career in marketing with Springpod's Virtual Work Experience in partnership with the Chartered Institute of Marketing (CIM). This programme will award you with all that you need to know about a career in marketing, covering a complete range of skills that will open doors for your future career search.

The programme involves around 10 hours of activity. There are live workshops but if you're unable to attend these live then recordings will be added which you can watch on-demand. **Click [link](#) if interested.**

Virtual ROUTES INTO STEM

Helping young people make an informed choice on the right STEM pathway for them

Flexible study courses running in October 2021, February & July 2022

Please go to the PDF that is also attached with the bulletin.

Year 9 & 10 students only

Free to join.

This is an innovative and exciting opportunity for all students aged Yr 9&10 to explore the various routes they can take towards their STEM (Science, Technology, Engineering and Maths) career. It is designed to give students an insight into pathways following GCSEs including study routes via college and university and direct apprenticeship routes through industry. It is suitable for all academic abilities - all that is required is a genuine interest in STEM subjects and inquisitiveness about what the future can hold.

unifrog Upcoming Webinars

Join live

Are you concerned about sustainability and climate change? Or were you interested in the COP 26 meetings that have been taking place?

Here's what you can find on the Unifrog platform: Search 'climate' in the **Resources library** to find six teaching resources including:

- Green jobs
- Tackling the climate crisis - what can I do?
- Climate change - busting myths

Head to the 'Climate crisis' section in the **Know-how library** to find eight guides including:

- Five careers to tackle climate change
- What are some countries doing to prevent climate change
- The story so far - a climate change timeline

Unifrog is also running a 45-min **'What is sustainability?'** webinar at **17:00 on Tue 7th December**. The webinar will teach students all about:

- What sustainability is
- Rewilding and why it's important
- Steps they can take to help save the planet!
