Careers Bulletin

AMBITION • PRIDE • SUCCESS

17<sup>th</sup> January 2022

Dear Students, Families and Colleagues

Happy new year to everyone reading this Careers Bulletin. I really hope everyone had a wonderful Christmas and New Year. I am looking forward to what 2022 will bring for our students at HT. The Careers Bulletin is aimed at giving information and opportunities for our students, parents, staff at HT and companies or businesses that may want to get involved with supporting our students at HT.

I am sure you have all made your own resolutions; I would like to share one of mine with you and hopefully ask for your help. One of my resolutions is to stay connected to HT Alumni, those students who have left us in recent years, as I want to know how well they are getting on in their lives once they have left us at HT either in Year 11 or Year 13. If you have a son, daughter, family member or friend who has left HT please encourage them to get in contact with me either by email or via LinkedIn, I am genuinely interested in how past students are getting on.

It has been a busy start to January; we welcomed Dan O'Connell, Creative Lead at Camelot/The National Lottery. He spoke to our Year 9 students in assembly about his bespoke career journey and launched a Media Project our students will be completing this term. Year 9 will also have a guest speaker join us virtually later this month, a Solicitor; Tola Adeseye, who works at Morrison & Foerster talking to the students about the pathways into Law and his career path so far. We are about to launch a Year 8 trip to Aerozone, Stansted Airport for a careers and activities day, in addition to preparing for a Year 8 Enterprise Challenge day with M&G global investment company. We had our first careers tutorial session explaining the outline for Year 10 Work Shadowing in July – date for your diaries is the 18<sup>th</sup> and 19<sup>th</sup> July. Finally, we are starting the preparations for celebrating National Apprenticeship Week (NAW) happening February 7<sup>th</sup>- 13<sup>th</sup>; if you want to find out more information about this national event then visit their [website](#).

If you are new to looking at our Careers Bulletin then please feel free to explore previous bulletins, they are on our website under Curriculum, HT Careers Programme or simply click this [link](#). However, lots of opportunities posted are time sensitive. All of our sections have links to follow and we strongly suggest you explore these options to better prepare our students for the future.

As ever, please have a look through and click on the links to various different websites for more information and any questions please get in contact with me.

THE CAREERS LEADER DASHBOARD

## HT Careers Talk with Camelot's Dan O'Connell

Dan O'Connell is the Creative Lead at Camelot / The National Lottery. Dan is one of Haileybury Turnford's Enterprise Advisors and he came in to set a brief for the Year 9 Media project. Dan regularly sets briefs for a team of designers, so this gives our students a real indication into what the real world is like for jobs in the creative sector, such as Media and Design.

Dan spoke to our Year 9s about his career path and gave our students some excellent advice. Dan spoke about how he grew up in the 90s and was deeply passionate about dance and rave music. Dan then spoke about how he began to design his own rave posters to advertise rave nights. Dan began DJing as well as creating posters. Dan didn't have time to mention that he used to coach football at Spurs, whilst doing DJing and creating rave posters. Dan then got a job in the bank, he still was DJing and designing until he earned enough money to stop working at the bank and concentrate on what he loved, designing and being creative.

Dan shared some fascinating stories with us and they kept going back to a message he was given by his Dad when he was younger. 'Do what you love'. I find this statement so powerful and it has been clear that Dan, really has, pursued a career following that mantra.

Dan spoke about work experience he was offered at a design company a few times a month and how that enthused him and open his eyes to a world of designing. This led to Dan being offered a job at Camelot, one of the UK's largest companies, Creative Lead.

Two inspiring statements from assembly; 'be curious' and 'do what you love'.

Ms Ledster and Dan O'Connell are really excited to see what the Year 9 Media students produce.

Thank you to Ms Ledster for organising and thank you to Dan O'Connell for taking his time to create a brief and come in to talk to our students.

POWERED BY HERTFORDSHIRE LOCAL ENTERPRISE PARTNERSHIP

## VIRTUAL EMPLOYER ENCOUNTERS

### Webinars for students

Graphic designers use illustrative, sound, visual and multimedia techniques to convey a message for information, entertainment, advertising, promotion or publicity purposes, and create special visual effects and animations for computer games, film, interactive and other media.

We think this webinar will be informative and inspirational for any students in Years 10 – 13 who have an interest in Graphic Design and/or are studying or considering studying Art, Design and Technology or related subjects.

[Click link](#) – to view a range of webinars talking to real employers

Hertfordshire Local Enterprise Partnership work closely with us at HT. Their website has a huge amount of relevant information for careers in Hertfordshire. I encourage you to visit their website whether you are a student or a local person looking for work.

The virtual employer encounters are really popular and feel free to go and visit and listen to the discussions with real employers, in real jobs, discussing what the industry is really like. A wide range of jobs, so I am sure you will find one that

# The Weekly Surgery

Every Monday evening 7.30pm Work Experience for students aged 14-18

Every Monday evening at 7.30pm we have work experience sessions running online for students aged 14 - 18 who might be considering careers in healthcare. The sessions have proved to be very popular with over 300 students from across the UK joining in each week. A different medical case each week and our doctors, with the help of the students attending, diagnose and treat the patient in the interactive 2-hour sessions.

Students are able to obtain a certificate every month for their participation in the sessions too.

If you have students interested in becoming doctors or any career in healthcare, we're offering them a 1 month free subscription - all they need to do is visit [www.theweeklysurgery.com](http://www.theweeklysurgery.com) and use your school code: **WEEKLY90** for their 1 month free for which they will also obtain their certificates to use in their university applications. The code will be valid **until the 20th January 2022**. It's usually £39 per month and they are free to cancel before their renewal and just take part in the free month no problem should they wish.

Are you interested in a career in animals?

[The RVC Animal Academy](#)

A free online programme to support young people from under-represented backgrounds to reach their goals of studying and working with animals. ## Free online webinar to help aspiring medics get back on track with their Medicine

Medical projects will be running a free online webinar where we will be covering the following:

- Medicine Application Timeline
- Medical Work Experience
- How to Get Work Experience
- Reflection
- Key Deadlines/Dates to note down
- Choosing a Medical School - Making Choices

Every attendant will also receive multiple frameworks, templates and other materials they can use on their journey to Medical school.

**Webinar Name:** Medicine Application: Getting Back On Track

**Date:** Wednesday, January 26

**Time:** 07:00 PM (London time)

**Location:** Online - Zoom

**Admission:** Free

**Suitable for:** Students in Year 10,11 and 12.

Your students can book their free space here:

[educationprojects.co.uk/project/medicine-application-getting-back-on-track](https://educationprojects.co.uk/project/medicine-application-getting-back-on-track)

## INVESTIN

### The Young Lawyer Programme

Programmes for 12-14-year olds as well as 15-18-year olds.

Your students can now register for our spring term career opportunities, which are available in 20+ cutting-edge industries.

**Students will learn directly from some of the UK's best professionals** - doctors, forensic scientists, architects, MPs, filmmakers, engineers and more - through a series of live, interactive simulations which provide tailor-made, professional experience to ages 12-18.

If you're looking at applying at a London university, and are still to make your choice, then why not consider one of our [Flying Start degree programmes](#) at Queen Mary University, London.

With the UCAS application deadline approaching on 26 January, we still have spaces on our **Accounting** and **Technology** programmes and we'd love to hear from you. With our Flying Start degree programmes you don't need to compromise, you can go to university and start your career at the same time.

Studying at university you'll get to experience the full-time student lifestyle, but with integrated paid placements you'll have some money to enjoy it too. You'll not only gain a degree, you'll also get to work with world-class clients and be part of our highly skilled teams.

Do you have good school grades but are not sure if Oxford, or university, is right for you? The free UNIQ programme might be just what you need.

This programme is a fantastic opportunity offered to those who need it most. every year about a third of UNIQ students who apply to Oxford get offered a place.

[Applications are now open](#) and close **7 February**.
