Dear Parent/Carer

## Groupings in mathematics

Throughout last term our Year 7 students took a range of different assessments in mathematics including the UK Cognitive Ability (CAT test) and our own half termly summative assessments. This produced a large amount of useful data which has helped us to better tailor the teaching and support given to our students in mathematics. As a result of this, your child may have some small timetable changes and be taught by a different mathematics teacher from the start of this half-term.

Changes to our mathematics groupings is common practice at Haileybury Turnford for this time of year once all of the data has been collected, and it is essential that our Year 7 cohort can access the curriculum to their full potential to help mitigate against the impact of COVID-19. If you would like to discuss any changes further, then please contact our Director of Mathematics, Mr Duncan, via email [duncanr@haileyburyturnford.com](mailto:duncanr@haileyburyturnford.com). We do hope your child continues to be successful in their learning in mathematics.

Yours faithfully

**Miss D Newman**  
Assistant Principal
