## HAILEYBURY TURNFORD TEAMS UP WITH REGENTS CAMPS UK TO OFFER ITS AUTUMN CAMP DURING HALF-TERM

For three days during the recent autumn half-term break, over 85 students from Haileybury Turnford attended a programme of activities run by Regents Camps UK. The programme was designed to help students improve their literacy and numeracy skills and receive additional tutoring in a range of core subjects.

The Department for Education funds this programme through the School Led Tutoring Grant. The programme has been put in place by the government to help students get off to a flying start in the new school year.

Through a wide range of topics and resources, Regents Camps UK helped deliver impactful lessons which were both fun and engaging for students. Additionally, there were wider cultural and team-building opportunities which the students might otherwise not be able to access. The autumn camp enabled students to benefit from fun and stimulating maths, English, science, geography and history lessons, with additional enriching sports activities.

Speaking about the project, Sez Aydin, National Tutoring Programme Coordinator at Haileybury Turnford said:

“Haileybury Turnford has been able to provide our students with extra support in maths, English, maths, science, geography and history by offering learning in small groups during our half-term programme. Prizes were provided to our students which included five Samsung tablets to the most committed learners, a £50 high-street voucher for full attendance, and an ice cream van for the final day before the celebration awards assembly to celebrate our students’ achievements. Our autumn camp has been a really valuable experience for our students.”
