26th May 2023

Dear Students, Families and Colleagues

With exam season well in full swing, I want to wish every student sitting exams good luck. It is a good time for all of us to start to think about our futures, or at least what options are available for us. There is a wide range of information in these bulletins, but I would like to highlight the HOP website. This is a website dedicated to everything about careers and opportunities in Hertfordshire. This is an absolutely excellent resource for students, parents will also benefit.

If you have any family members who used to attend Haileybury Turnford or Turnford, please ask them to get in touch with me and they can join our alumni 'HT Connect' to stay connected to the school and potentially share their experiences to support our current students about the world outside of school.

If you want to take a deeper look into Careers at HT then please visit our website and see our partners, general information about Careers at HT and copies of previous bulletin posted.

As ever, please have a look through and click on the links to various different websites for more information and any questions please get in contact with me.

Macaulaye@haileyburyturnford.com 01992 308 333 ext: 300

Yours faithfully

Mr E Macaulay

Assistant Principal & Careers Lead

HT CONNECT

POWERED BY HERTFORDSHIRE LOCAL ENTERPRISE PARTNERSHIP

HOP is a one stop shop for talent. Powered by Hertfordshire Local Enterprise Partnership, students, employers, residents wishing to upskill, are now able to *HOP into* all the resources they need to make informed career decisions *and* build a future talent pipeline. HOP is the premier gateway in Hertfordshire to find out about: career path options, employment opportunities, apprenticeships and work experience, skills development and professional qualification programmes.

The Litmus School Writing Project

Students in years 9, 10, and 11, are very much encouraged to enter the **Litmus School Writing Project**, which this year invites creative writing pieces on the theme of 'over the border'. Entries remain open until **Friday 28 July**. Click [here](#) to enter

Here at Trinity we are delighted to launch The Litmus Creative Writing Project 2023 – an opportunity for year 9-11 students currently attending state school (or on a full scholarship to a fee-paying school) in the UK to submit a short piece of writing of under 500 words in poetry, prose or any other format (including artwork) based around a theme for publication.

This Year's Theme: Over the Border

Are you a writer? Do you want to write? If YES: good. Continue reading this message.

Are you a student in year 9, 10 or 11 and interested in writing – fiction, or non-fiction, or poetry, or maybe graphic novel writing, or blog writing, or in writing and storytelling in any shape or form you want?

What comes into your head when you hear or read or think about the phrase *over the border*?

What are borders for? Do they exist so that we can cross them? Or are they for stopping people (and things) crossing, at least without being checked and monitored – and if so, why is that?

Who gets to cross them and who doesn't? Why do we have borders? Do they decide where a country begins and ends? Why are borders almost always contentious? Why, right now, do they seem more contentious than ever? And are they dividing lines or are they thresholds?

In human history borders and thresholds have long been understood to be places charged with great energy, even magic, which is why people used to get married standing on the thresholds of houses or churches. What if, instead of thinking a border meant the place where something ends and divides, we thought of borders as places where two different things come together and something bigger, something more, comes about because of this meeting?

The Litmus is a writing initiative for UK-wide school students. We're looking for student writing or artwork of any and every sort, and this year we're inviting submissions up to 500 words which consider the phrase over the border in any way you like. Make something of it. Send us what you write or make, we'll publish it in our online magazine. We'll also publish our favourite pieces in book form at the end of the school year. You'll become part of a writing collective like no other, a collective that will act as a touchstone for readers interested in what your generation is doing, thinking and writing right now.

Write about what over the border means to you. We'll be proud to publish what you write.

Building a better
working world

Assurance

Apprenticeship

Programme

If you have a keen eye for detail, love problem-solving or enjoy working in a supportive environment, then an Assurance Apprenticeship at EY could be the perfect place. Click the [link](#) to find out more.

EY is seeking talented school leavers to join their assurance team. As an Assurance Apprenticeship, students will help businesses protect themselves from risks affecting their reputation and performance. And, while technology increasingly automates the routine work, you can expect more freedom to focus on clients. And clients are a big part of the job.

You won't be hiding away behind the scenes here. You will be developing key relationships and making them last – all while building a better working world through big and impactful projects. You will have a dedicated buddy to support and guide you throughout your apprenticeship
