

KS3 Personal Finance – HT Standards

"I am..."	Personal Finance descriptors
Well above the standard	I have a comprehensive amount of knowledge to achieve the full range of learning outcomes given in a variety of contexts. I can make a comprehensive judgement and observation about the context provided and can analyse various financial factors that have either positive/negative/minimal impact. I understand the significance/limitations of my findings . I can make recommendation for success and provide relevant supporting evidence and can produce a comprehensive evaluation
Above the standard	I can demonstrate a good amount of knowledge and achieve the majority of the learning outcomes. I can make a judgement and observations about given financial information and can analyse various financial factors that have positive/negative/minimal impact and understand the significance of my findings . I can make a recommendation for success, provide relevant supporting evidence and produce an evaluation
Meeting the standard	I can demonstrate a broad amount of knowledge to achieve most of the learning outcomes. I can make a judgment and observations about given information and can explain financial factors that have positive/negative/minimal impacts and begin to understand the significance of my findings . I can make a recommendation for success with some supporting evidence and a limited evaluation .
Working towards the standard+	I do not use context when answering questions. I have reasonable knowledge . I can use basic financial terminology although there are often spelling mistakes. I am not always able to choose the correct financial products based on the context provided but I can identify some of the issues faced in the context . I am able to state some advantages and disadvantages of various financial products. I attempt calculations to support my answers but there are errors present. I can state some financial services and products that are available to match them to a context on some occasions
Working towards the standard	I can recall basic knowledge . I can complete basic business spellings but spell some words phonetically, some words are spelt correctly. I attempt financial calculation but these will often have errors in them. I can make a statement about the calculation but I do not interpret the data correctly . I can tell others about some financial products that are available but do not describe them accurately . I fail to use context in my answers.
