

Best ever English and Maths results for Haileybury Turnford Year 11 students today

Students are celebrating today at Haileybury Turnford in Cheshunt as GCSE and other vocational qualification results are published.

Principal, Robin Newman, said, "We are delighted for our students who have been rewarded for their hard work and should be very pleased with their results today. The Class of 2025 has achieved the school's best ever English and Maths results as well as success across the whole range of subjects. It was lovely that many staff were able to celebrate with students in school this morning and we wish our students well as they continue their studies at sixth form or college, or begin an apprenticeship or work."

Year Achievement Coordinator for Year 11, Charlotte Bilsby, said, "We are incredibly proud of the successes of our Year 11 students today across their GCSE and vocational qualifications. Their results are a testament to their hard work, resilience and determination, and it has been wonderful to see so many smiles as they collected their results and celebrated this morning."

Amongst the highest achievers were **Ama Ampiaaw, Kai Baptiste, Rosie Hill, Cihan Kas, Macdonald Oduro and Britney Siaw**, all receiving a very high number of top grades.

Robin Newman added "there are so many other students with results that have set them up very well for their step beyond Year 11, and we celebrate with them all. We look forward to working with very many of our Year 11 students in our sixth form next year and hearing about college and the world of work from other students exploring different pathways beyond Haileybury Turnford".
