

Sixth Form

Haileybury Turnford

AMBITION • PRIDE • SUCCESS

"Pupils, including those students in the post-16 provision, run charity events and volunteer in the community. These events are purposely planned to further develop pupils' character and personal development." Ofsted 2026

"Pupils, including those in the post-16 provision, access appropriate work experience and highly effective careers advice and guidance. Students move on to a range of universities, appropriate apprenticeships and workplaces.They are very well prepared for their next steps in education, employment or training." Ofsted 2026

"Students access a range of different academic and vocational qualifications. The curriculum is highly inclusive and accessible to students of all abilities." Ofsted 2026

A Sixth Form for everyone

Welcome to the Sixth Form at Haileybury Turnford.

This is an exciting time in your student life, when you begin to consider what you want to pursue after Year 11 and explore all the options open to you.

At Haileybury Turnford Sixth Form we are supportive, friendly and encouraging to everyone who joins us. Whether you are taking A levels, pursuing vocational courses or continuing with your GCSE studies, we wish to work in close partnership and we are with you all the way.

Our values of Ambition, Pride, Success mean that our aim is the same as yours - to achieve your full potential and to move into the next phase of your life feeling prepared, confident and independent.

We are proud to be an inclusive Sixth Form. Whichever pathway you choose, we provide a stimulating learning environment for students of all abilities, interests and backgrounds. We are truly a Sixth Form for everyone.

Robin Newman
Principal

Navpreet Shivalkar
Assistant Principal & Head of Sixth Form

"I always knew I wanted to be a lawyer, but knowing your dream and knowing how to reach it are two different things. HT gave me the exact tools to turn my ambition into reality. From Debate Club and Model United Nations at Haileybury to frequent university trips, I have been given the freedom and space to excel, push my boundaries, and pave my own path toward a career in law.

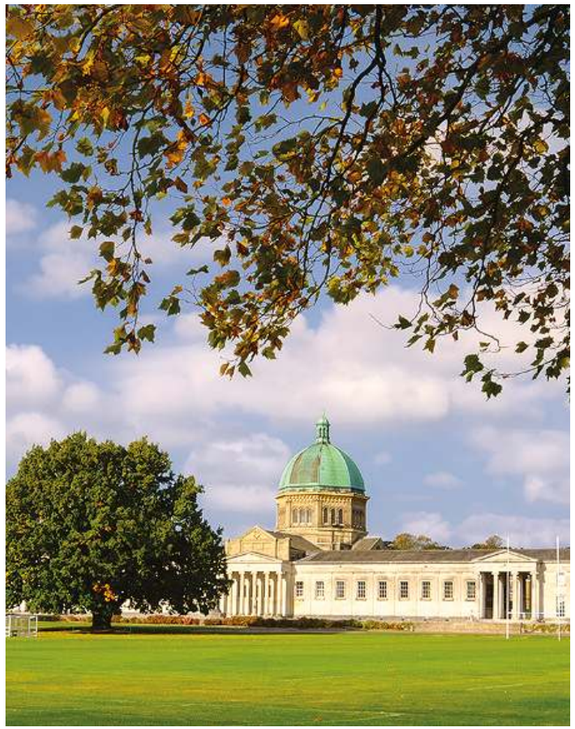

More than anything, HT has shaped me into the woman I am today. Through the mentorship of my teachers and the trust placed in me, I leave here fiercely independent, confident in my voice, and fully prepared to take on the real world after my exams."

Year 13 Student

Our partnership with Haileybury was established in September 2015.

As the relationship has grown, many of our students have been invited to complement their sixth form studies by participating in the co-curricular programme at Haileybury. The programmes covers opportunities such as Medical and Science Programmes.

Haileybury is also hands on with their support of UCAS applications, admission tests and interview preparation for the most selective universities. With their assistance and encouragement, many of our students have been successful in obtaining places at the Universities of Cambridge and Oxford, as well as other highly successful universities.

We also have students participating in Haileybury's annual Model United Nations Conference and attending regular lectures hosted at the school in Hertford.

In partnership with Haileybury

"We are delighted that our partnership is making a real impact on the lives of the students at Haileybury Turnford. The future for Haileybury Turnford is very bright indeed."

Rob Whitaker *Chair of Governors*

In partnership with our students

The Sixth Form at Haileybury Turnford is committed to developing students so that they are equipped for the next chapter in their lives.

We encourage and support an independent approach to your studies, giving you both the responsibility and the freedom to manage your work and expand your knowledge.

Our enthusiastic teachers are committed to delivering stimulating lessons where you can challenge and explore subjects thoroughly. This leads to comprehensive and mature work that can confidently be taken forward to higher education and employment.

"The school has given me opportunities to discover what I want for my future and how to get there. It has helped shape not only who I am today, but also the person I want to become.

Through my teachers, the advice I've received, and the opportunities I've been encouraged to take, I've been able to develop my interests and become much clearer about the direction I want to take after sixth form and I know that the resilience, leadership and confidence I have developed here will stay with me long after I leave." Year 13 student

Enrichment for a broad and well-rounded student experience

As well as your academic or vocational studies, our Sixth Form gives you space to further your potential and grow in confidence.

We encourage students to explore all that is available to them, developing their personal interests, skills and experiences, with personalised support from our Sixth Form team.

Since 2018, a number of Sixth Form students have been successful in winning the prestigious Pioneer Award from BASET (British Australian Society Education Trust). Each year two of our students are able to travel to Darwin and Melbourne for four weeks to spend time in Haileybury Australia schools.

Students also travel to Uganda each year, working with Haileybury Youth Trust which trains young Ugandans in innovative building technologies and construction skills that improves education and life chances.

Both of these overseas partnerships provide students with the opportunity to develop independence and resilience and we expect to keep offering these in future years.

We regularly have speakers from universities and industry to come to our Sixth Form to give students an understanding of the university experience. We also invite organisations, such as the Bank of England, to discuss what the bank does and how the economy works.

We attend University and Apprenticeship Fairs and run a Futures Week where we help to prepare our students for life after Haileybury Turnford and hear about the vast range of courses and training available. Students find these events informative and inspiring as they begin to decide their next steps after Sixth Form.

Alongside the suite of A level and Level 3 vocational subjects, we participate in a wide range of enrichment programmes:

Extended Project Qualification (EPQ)

This is a standalone qualification designed to extend and develop your skills in independent research and project management.

Core Mathematics

You will develop your confidence in applying maths to solve real world questions and therefore enhance your problem-solving skills.

Young Enterprise Company Programme

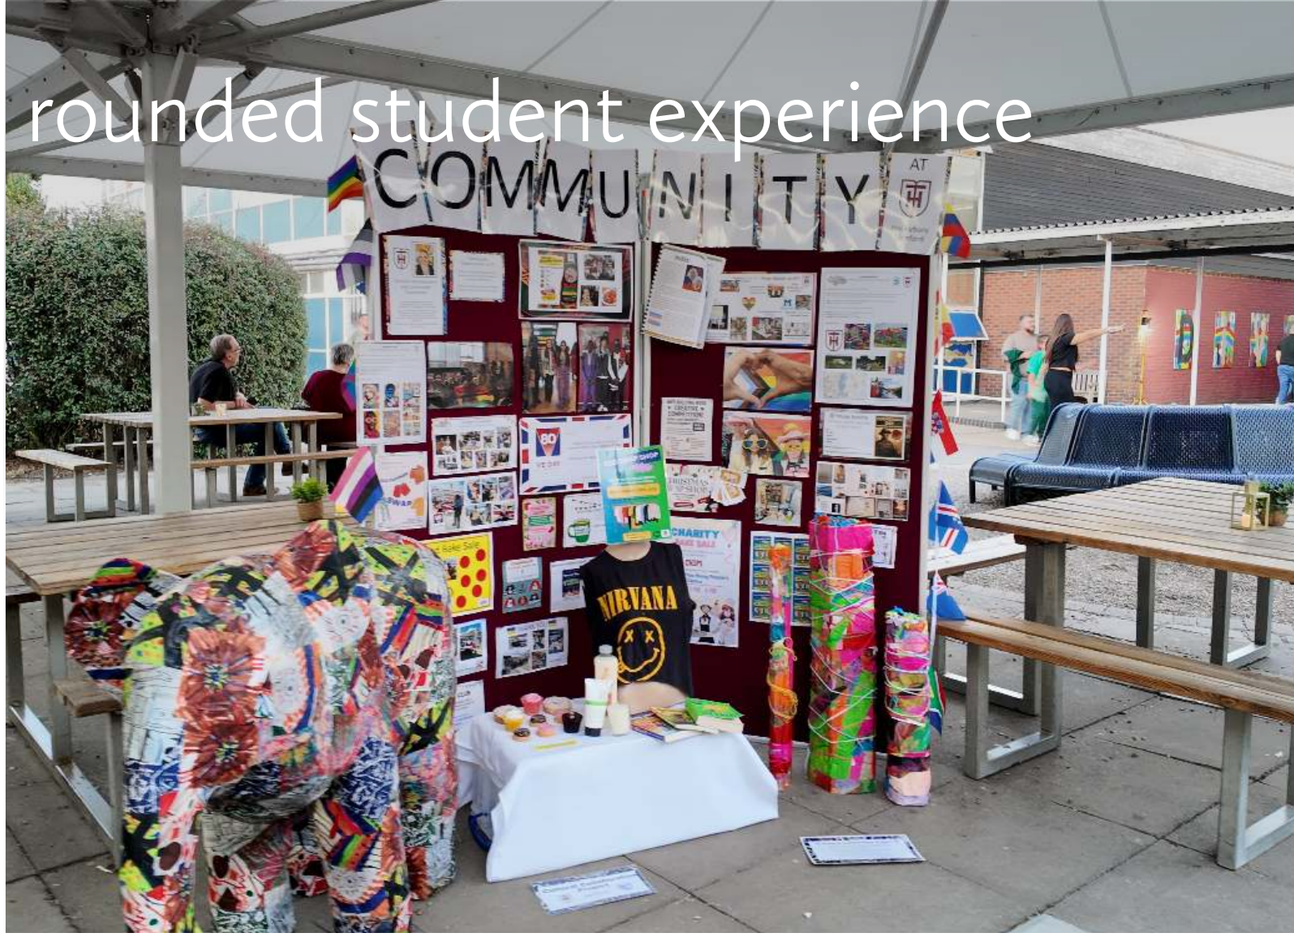

You will set up and run a student company under the guidance of a volunteer. Students make all the decisions about their business, from deciding on the company name, managing the company finances and selling to the public. Participants gain practical business experience and key skills.

Gold Arts Award

Gold Arts Award is a student-led qualification that encourages creativity and independent learning. It challenges you to develop your arts practice, lead an arts project, investigate topical arts issues and get involved in the arts world. Completing the award will give you a foothold in the creative industries and skills for life – whatever your future holds.

HT Sports Leadership

The HT Qualification in Sports Leadership is a qualification that enables students to independently lead purposeful and enjoyable sport/physical activity.

"This trip was a once in a lifetime opportunity that I will never forget. From the plane journey, the welcoming teachers, the friendships in Darwin, the wildlife encounters, the Melbourne host family, my birthday, and the school experiences; every part of the journey shaped me.

I gained confidence, independence, and memories that will stay with me forever. It was an extraordinary experience, and I am incredibly grateful that I had the chance to participate in." Year 13 student

"Students in the post-16 provision, for instance, can access international visits, such as trips to Uganda or Australia. These experiences are designed to broaden pupils' horizons and take them beyond the school gates." Ofsted 2026

In partnership with our community

Our Sixth Form ensures that our students understand their social responsibility and we ensure that any work in the community or fundraising activity is promoted and supported.

We are also very proud of the students who pursue activities which take them beyond their local community.

As with the rest of the school, we aim to foster good relationships with parents and carers of our students so that we can provide a healthy and supportive environment for learning.

"We are delighted to have an active and ongoing partnership between Haileybury and Haileybury Turnford. Working collaboratively has benefitted both schools immensely and we are more committed to develop all areas of the partnership than ever before."

Mackenzie Bates Haileybury Partnership Coordinator

"Haileybury Turnford is committed to giving its students opportunities to thrive and succeed. Haileybury Turnford Sixth Form provides an environment for its students to have fantastic opportunities to develop and study to achieve their goals for the next stages in their futures."

Dr Laura Pugsley Deputy Master, Haileybury
